

Achieving a good work/life balance

We support our employees in achieving a successful balance between private and professional goals in many countries, Germany included.

Aims

Embed work/life balance within the larger context of demographic trends.

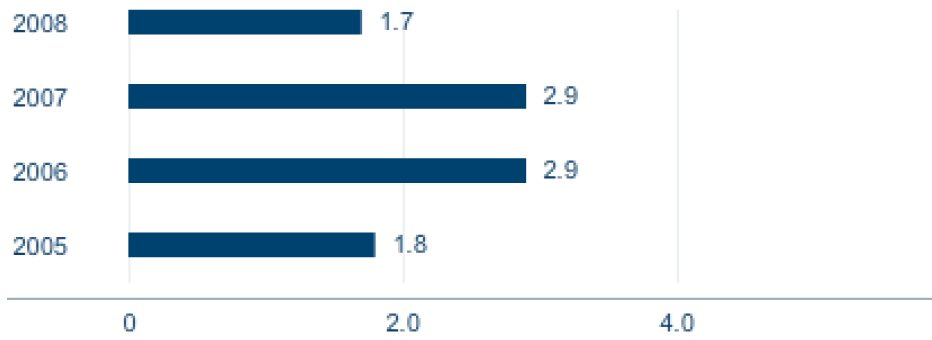

Measures

Help in locating family services (childcare, advice on care options for elderly or sick family members) in Germany, similar offers in other countries.

Facts and Figures

Percentage of part-time employees

Percentage of women in senior management positions

As the role evaluation systems of Linde and BOC were harmonised in 2006, we do not have relevant data for that year.

Next steps

In 2010, the demographic trends taskforce will resume regular meetings.
